

# SECURFAST™

## SECURFAST™ Coolknit Tubular Bandage

**A world's first** in a breathable cool elasticised tubular bandage providing a conforming fit for any part of the body.

**Australian Made, Australian Designed** featuring a conforming radial stretch for dressing fixation and skin covering. Ideal as a cast or splint under-bandage due to its unique conformability, patient compliance and cool effect

**Quick and simple to use**, may be cut easily, with less risk of fraying than traditional tubular bandages. No need for tapes, pins or ties to fasten in place

### Features & Application

- High technology Coolknit elasticised fabrication
- Less risk of fraying
- Breathability, providing better patient compliance
- Unique knit allows for enhanced air circulation.
- Lightweight conforming open weave
- Colour Beige with stripe colour coding except 5cm (white) with stripe
- Colour Coded sizing
- Latex Free
- Supplied in 10 metre rolls

ARTG 120498
