Secur™ ProCool Thumb CMC Restriction Brace

**Comfortable splint provides direct support for the thumb CMC joint
While allowing full finger function**

Wrap around supports are made of thin, 1/16" (1.6mm) Secur™ Totalprene with a terrycloth (Medical Plush) liner that helps keep skin cool and comfortable.

Specifically designed for osteoarthritis and medial subluxation of the thumb CMC joint. Provides gentle compression that helps relieve thumb discomfort associated with CMC joint arthritis and/or instability, tendinitis or repetitive motion.

The ProCool Thumb Restriction Brace provides full finger function combined with a very low profile shaped strap, that wraps around the thumb CMC and the first metacarpal for targeted CMC joint support and stability.

The brace may be trimmed if required.

Machine wash and air dry.
